Frequently asked questions

How much time will 1 token give me?

The duration of 1 token is determined by your club and can change over time. Please check with club management regarding token costs and duration.

How long does it take for the lights to switch on?

Lights will come on within 10 seconds.

Can multiple players share the cost of a game?

Yes, each player can select the same court and number of tokens to use. When they hit 'Switch Lights on', the time for each token accumulates.

Can i cancel or switch off the lights if i select the wrong court?

No. just like when a card or coins are used, once its used the lights become active and cannot be cancelled.

Do i need to be near the token meter to use the App?

No. You can operate the App from any location so long as you have mobile signal.

Can i add time near the end of a game?

Yes, just use the App as normal. The time will add to the remaining time.

Where do i get the Tokens/ credits?

You can purchase through the secure payment portal in the App.

How long does it take for my credits to appear when i top up?

Once you hit pay it will take about 20-30seconds to go through. If the amount does not show please wait for 2 min as the network may be busy at that time.
